ORKAIT

Who are we?

Orkait is an engineering-first company that builds reliable client software and focused SaaS products.

Orkait’s Core Values

- Ownership – Own outcomes, not just tasks
- Reliability – Commitments matter
- Thoughtful Innovation – Build smart, not just new
- Craftsmanship – Quality is a habit, not an accident
- Respect & Clear Communication – Say things clearly and directly.

we are problem solvers

Problem → Break it Down → Prototype → Feedback → Solution

What We Build

Client Projects

- Dashboards & Admin Panels
- Business Websites
- Custom Web Apps
- Data & Business Analysis
- Scalable Backend Systems

SaaS Products

- Focused, problem-specific tools
- Built from real client and internal needs
- Limited scope, opinionated design
- Internal-first → External SaaS
- Examples: code execution engines, workflow tools, dashboards

“Products are built to solve real problems, not chase hype”

What Interns Can Expect

- Real problems
- Ownership & trust
- Feedback & growth
- Freedom with responsibility

Timings

- Output matters more than hours, but overlap is non-negotiable.
- 4:00 PM – 7:30 PM is mandatory overlap time for collaboration

Perks on Successful Completion

- completion certificate
- referral to companies by mentors
- goodies :D

How to Succeed at Orkait

You'll do well here if you:

- Communicate early when blocked or unsure
- Care about quality, not just completion
- Improve week over week
- Respect timelines and commitments
- Have a learning mindset

You'll struggle here if you:

- Wait to be told what to do
- Hide problems or miss deadlines silently
- Avoid feedback or responsibility

You’re trusted.
Act like an owner.
Deliver like a professional.
